This is a reference guide for the office manager, surgical planner/scheduler or physician as an aid in smoothly registering a new patient into the Lento Medical PST® System database.

WARNING: It must be noted that the use of MRI scanners in patients with metallic implants in or near the knee joint may adversely affect the quality and accuracy of the images obtained. For this reason it is generally recommended that such MRI scans not be ordered, please verify the order with the physician.

WARNING: Making custom cutting guides in pediatric patients has not been studied and the results of the use of Lento Medical cutting guides in these patients is unknown. For this reason, it is generally recommended that such patient not be entered into the patient database. Please verify this request with the ordering physician.

Manufacturer:

Lento Medical, Inc.
15110 Northwest Freeway, Suite 150
Houston, TX 77040 USA
+1 (510) 413-3230

Introduction

These instructions are intended to guide the surgeon or surgeons' representative in creating a new case for a patient. Adding a new case through the Lento Medical web portal (www.lentomedical.com) will create a new order for the Lento Medical PST.

1. Log In

Lento Medical Admin or Sales personnel will assist the surgeon with registering an account for the Lento Medical web portal. Once a username and password is created, the surgeon will use the information to log in.

- i. Enter Username
- ii. Enter Password
- iii. Click "Login" button

Welcome to Lento Medical Inc.
